

FOR IMMEDIATE RELEASE

FIRST CHEVRON GAS STATION ON KAUA'I TRANSITIONS TO TEXACO WITH TECHRON

Rebranded stations will continue to employ the same great people, offer the same popular Techron gasoline in every grade, and provide the same great service

Kapa'a, Hawai'i, (July 24, 2017) – Island Energy Services, LLC (Island Energy), the exclusive licensee of the Texaco brand in Hawai'i, is pleased to announce the first transitions of Chevron retail stations on Kaua'i to Chevron's sister brand, Texaco with Techron. Techron is the unsurpassed additive scientifically proven to clean and protect engines, maximize mileage and minimize harmful emissions.

The Kapa'a Chevron will be the first to rebrand on July 24, offering Texaco with Techron gasoline in every grade. Once the rebrand is completed, the station will continue to be open 24 hours a day and will offer propane and diesel fuel.

Starting in July, the network of five Chevron-branded gas stations on Kaua'i will convert to Texaco. After the transition, all stations will continue to offer the same quality service, Safeway reward program and use of existing Chevron/Texaco credit cards. The newly rebranded stations will continue to honor Chevron and Texaco gift cards, which are currently offered at all five Kaua'i stations. The newly rebranded Texaco stations will also continue to offer the superior cleaning power of Techron – in all grades of gasoline: Texaco Unleaded, Power Plus and Power Premium.

“After successfully transitioning to Texaco on O'ahu and Hawai'i Island, we are excited to move forward with the transition of our retail stations under the Texaco with Techron

brand on Kaua'i," said Jon Mauer, Island Energy Services president and chief executive officer. "As a locally run and managed company, we know how much Hawai'i drivers love Techron. We are proud to be the only gas stations across the state to offer Techron in every grade of our high-quality gasoline."

While there may be a new exterior look and feel at the rebranded stations, Island Energy, is assuring the community that it is 100% committed to Hawaii and its residents.

"We are committed to working with the dedicated retailers who helped build Chevron's strong reputation in Hawaii. We look forward to building upon these relationships, and to thanking our customers for their loyalty by continuing with the rewards programs they enjoyed with Chevron, like the Safeway Reward program, Chevron/Texaco credit card and gift cards," said Al Chee, Island Energy Services Vice President of Retail Marketing & Community Relations.

Island Energy purchased Chevron USA's Hawaii refining, distribution and retail assets in November 2016, including stations on Oahu, Maui, Kauai and Hawaii Island. Under Island Energy, all Chevron stations will be rebranded to its sister brand, Texaco with Techron while continuing to offer the same grades of Techron-enhanced gasoline: Texaco Unleaded, Power Plus and Power Premium.
